REISSUE DECLARATION AND POWER OF ATTORNEY

Honorable Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

We, the undersigned inventor and assignee of the above identified patent, hereby declare that:

Our residences, post offices and citizenships are as stated below next to our respective names.

I, the named inventor, believe I am the original, first inventor of the subject matter claimed and for which a reissue patent is sought on the invention as entitled above the specification, drawing and claims of which are attached hereto, and the undersigned assignee believes that this named inventor is the first and original inventor of the subject matter claimed.

We hereby state that we have reviewed and understand the contents of the above identified specification, including the claims.

We acknowledge the duty to disclose information which is known to us to be material to patentability in accordance with Title 37 , Code of Federal Regulations, Section 1.56.

We hereby assert that this application to reissue the above-identified patent has been filed in order to correct certain defects in the patent that render it partially inoperative. First, it claims less than we had the right to claim. Reference is made to new claims added to this patent by this reissue application as evidence of the added material that could have been claimed by us and now is being claimed by us. Second, a series of references have been cited in a reexamination request filed recently, and we ourselves have additional art to cite, including a prior art bean that was inadvertently not cited during the original examination of the above-identified patent. These above-referred to errors arose without deceptive intent.

We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful, false statements and the like so made are punishable by fine, imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent reissued thereon.
